Notes on Interpretation and Responsible Use of Results

Introduction

The Enneagram is a powerful tool for self-discovery and personal growth. It identifies nine distinct personality types, each with its unique attributes and traits. This test helps individuals gain insight into their core motivations, fears, and behaviours. Understanding your Enneagram type can lead to enhanced self-awareness, improved relationships, and more effective personal and professional development.

How to read this report

This report provides a comprehensive analysis of your Enneagram type and attributes. It begins with an overview of your personality type and a detailed exploration of your top ten attributes. The report delves into your work style & communication style, based on your type and attributes. It offers practical recommendations for personal and professional growth.

How to read an Enneagram chart

The assessment is divided into follow these steps:

- Identify Your Enneagram Type:**
Look at the chart, and you will see percentage rankings on each of the nine Enneagram types. The number with the highest percentage is your Enneagram type.
- Embracing Personality Complexity:**
In the Enneagram system, an individual can have more than one personality type with relatively high scores. This can happen because our personalities are complex, and we may exhibit traits and behaviours associated with multiple Enneagram types to varying degrees.
- Probing Adjacent Enneagram Influences:**
In some cases, individuals may have two or even three types with scores that are relatively close to each other, indicating that they share characteristics from those types. This is often referred to as having 'wing' types, where a person's primary type is influenced by one or both of the adjacent types on the Enneagram diagram.
