Summary

Introduction

PicOCEAN is an innovative, picture-based personality assessment developed by Testlify to evaluate the Big 5 personality traits, now tailored for modern workplace needs. Using interactive images, PicOCEAN offers a fast, accurate, and validated method for assessing key personality factors that drive success in today's dynamic and evolving work environments. The assessment is mobile-friendly, easy to use, and provides valuable insights into the competencies that matter most for both technical and non-technical roles.

PicOCEAN measures five essential traits aligned with the original Big 5 model, while reflecting updated definitions that capture the complexities of modern professional environments:

- **PicO: Openness to Experience** — Reflecting the ability to explore new ideas, adapt to changes, and approach challenges with creativity and curiosity.
- **PicC: Conscientiousness** — Emphasizing responsibility, resilience, and a goal-driven approach to work, with a focus on maintaining high standards.
- **PicE: Extraversion** — Characterized by energy, sociability, and the ability to motivate and inspire others in social and team settings.
- **PicA: Agreeableness** — Focusing on collaboration, cooperation, and maintaining positive working relationships to achieve shared goals.
- **PicN: Navigability** — Assessing the ability to effectively navigate complex, uncertain, and fast-paced work environments, adapting quickly to change.

With 15 sub-factors covering critical competencies like adaptability, resilience, and interpersonal skills, PicOCEAN not only helps organizations select the right talent but also ensures alignment with the skills that are essential for success in today's fast-paced, globalized, and technology-driven workplace.

How to read the report

When reviewing the PicOCEAN report, it's essential to remember that no score on a personality assessment is inherently good or bad. Each individual has unique traits that contribute to their potential in the workplace. The scores reflect various aspects of a person's personality and are used by psychometric experts to provide insights into how they may behave, interact, and perform in a professional setting.

Major scores

Score description

1. PicO: Openness to Experience 33%

Likely prefers familiar methods and proven solutions. May not actively seek new experiences or take risks, but this approach is valuable in roles that require consistency, attention to detail, and adherence to established processes. Prefers routine, ensuring order and efficiency in the workplace. This grounded perspective ensures that changes are implemented thoughtfully and only when well-justified, contributing to a stable and predictable work environment.

2. PicC: Conscientiousness 56%

Somewhat conscientious, balancing a sense of responsibility with flexibility. Can be relied upon to meet commitments but may prefer to maintain a reasonable workload. A moderate score suggests a practical approach to achieving goals, allowing consistency under pressure while also being adaptable when necessary. This balance helps contribute effectively without overextending themselves.

3. PicE: Extraversion 44%

Somewhat extroverted, enjoying social interactions while also valuing time for reflection. Balances enthusiasm with a measured approach to engagement. A moderate score suggests they can adapt to both collaborative and independent work settings, contributing positively without overwhelming others. This balance helps maintain productive relationships while ensuring personal focus.

4. PicA: Agreeableness 55%

Somewhat agreeable, balancing personal viewpoints with the needs of the group. Can collaborate effectively while maintaining a sense of independence. A moderate score suggests they are capable of resolving conflicts and working towards shared goals without compromising personal standards. This balance helps navigate team dynamics while ensuring individual contributions are recognized.

5. PicN: Navigability 22%

May prefer structured environments with clear expectations and stable routines. While they may not seek out uncertainty, this approach is valuable in roles that require consistency and reliability. Their preference for well-defined processes ensures tasks are completed methodically, contributing to a steady and dependable work environment. Their focus on maintaining order helps minimize disruptions and ensure smooth operations.

PicOCEAN: Score analysis and sub-factors

1. PicO: Openness to Experience 33%

Likely prefers familiar methods and proven solutions. May not actively seek new experiences or take risks, but this approach is valuable in roles that require consistency, attention to detail, and adherence to established processes. Prefers routine, ensuring order and efficiency in the workplace. This grounded perspective ensures that changes are implemented thoughtfully and only when well-justified, contributing to a stable and predictable work environment.

PicO: Graphical Representation

PicO: Detailed analysis

1. Learning Agility: 33%

Hesitant to take on unfamiliar tasks or learn new skills, preferring to stick with what is known. Struggles to adapt to new technologies or processes, requiring significant support or time to adjust. Focuses more on current knowledge and methods, with limited interest in exploring new learning opportunities.

2. Creativity: 33%

Tends to rely on traditional or proven approaches, preferring familiar methods to generate solutions. Shows limited initiative in offering new or innovative ideas, sticking to routines or standard practices. May resist exploring unconventional or creative solutions, focusing on practicality and efficiency over originality.

3. Experimenting: 33%

Prefers to stick with established methods and approaches, avoiding the uncertainty or risks associated with experimentation. Reluctant to try new ideas or experiences, particularly if they are unfamiliar or involve potential failure. Focuses more on stability and predictability, resisting change or novel approaches unless absolutely necessary.

2. PicC: Conscientiousness 56%

Somewhat conscientious, balancing a sense of responsibility with flexibility. Can be relied upon to meet commitments but may prefer to maintain a reasonable workload. A moderate score suggests a practical approach to achieving goals, allowing consistency under pressure while also being adaptable when necessary. This balance helps contribute effectively without overextending themselves.

PicC: Graphical Representation

PicC: Detailed analysis

1. Resilience: 67%

Recovers from setbacks but may take time to adjust to new challenges. Stays calm under pressure but might ask for help at times. Can adapt to change if it feels familiar or predictable.

2. Reliability: 0%

Struggles to meet deadlines and often requires extensions or reminders. May not consistently follow through on commitments or deliver results on time. Colleagues and stakeholders may need to check in frequently to ensure tasks are completed.

3. Ambition: 100%

Sets challenging goals and consistently works towards achieving them with focus and determination. Demonstrates a strong drive for personal growth and seeks out opportunities for advancement. Actively pushes themselves to exceed expectations and strives for excellence in all tasks.

3. PicE: Extraversion 44%

Somewhat extroverted, enjoying social interactions while also valuing time for reflection. Balances enthusiasm with a measured approach to engagement. A moderate score suggests they can adapt to both collaborative and independent work settings, contributing positively without overwhelming others. This balance helps maintain productive relationships while ensuring personal focus.

PicE: Graphical Representation

PicE: Detailed analysis

1. Friendliness: 33%

May seem reserved or distant in social situations, showing little interest in engaging with others. Struggles to connect with others on a personal level or may prefer solitary tasks. Creates a more neutral or formal atmosphere, with limited warmth or openness in interactions.

2. Sociability: 0%

Prefers working or interacting independently and may avoid large social gatherings. Finds it challenging to connect with others or may feel uncomfortable in unfamiliar social settings. Tends to stick to familiar groups and avoids engaging in new or diverse social environments.

3. Influence: 100%

Inspires and motivates others by communicating a clear vision and creating a sense of shared purpose. Effectively persuades others to align with organizational goals, using logic and emotional appeal to gain support. Builds strong relationships and fosters cooperation across teams, ensuring that everyone is on the same page.

4. PicA: Agreeableness 55%

Somewhat agreeable, balancing personal viewpoints with the needs of the group. Can collaborate effectively while maintaining a sense of independence. A moderate score suggests they are capable of resolving conflicts and working towards shared goals without compromising personal standards. This balance helps navigate team dynamics while ensuring individual contributions are recognized.

PicA: Graphical Representation

PicA: Detailed analysis

1. Conflict Resolution: 33%

Struggles to address conflicts or prefers to avoid difficult conversations, potentially letting issues remain unresolved. May become defensive or disengaged during disagreements, making it hard to maintain positive relationships. Often prefers to stay neutral or withdraw from conflicts rather than actively mediate or resolve them.

2. Cooperation: 100%

Actively contributes to team goals, sharing responsibilities and supporting colleagues in achieving common objectives. Demonstrates a strong willingness to collaborate, offering help and resources to others when needed. Maintains a positive attitude toward teamwork, readily adapting to group needs and working harmoniously with others.

3. Conformity: 33%

Prefers to maintain personal beliefs and behaviors, even if they differ from group or societal expectations. May challenge or resist group norms, prioritizing individual opinions or values over conformity. Tends to avoid making compromises for the sake of fitting in, leading to occasional conflicts or feelings of exclusion.

5. PicN: Navigability 22%

May prefer structured environments with clear expectations and stable routines. While they may not seek out uncertainty, this approach is valuable in roles that require consistency and reliability. Their preference for well-defined processes ensures tasks are completed methodically, contributing to a steady and dependable work environment. Their focus on maintaining order helps minimize disruptions and ensure smooth operations.

PicN: Detailed analysis

1. Comfort with Uncertainty: 0%

Struggles to make decisions without clear or complete information, often seeking reassurance or waiting for more clarity. Prefers stable and predictable environments, feeling uncomfortable in situations with significant uncertainty. Avoids situations where ambiguity is present, needing structure and clear guidelines to function effectively.

2. Teamwork: 33%

Prefers to work independently or within a small, familiar group, finding it difficult to collaborate with teams across functions or geographies. Struggles to communicate or coordinate effectively with team members from different backgrounds or disciplines. May resist or avoid sharing responsibilities, preferring to work solo rather than engaging in collective team efforts.

3. Adaptability: 33%

Struggles to adapt to organizational changes or new technologies, preferring familiar methods and routines. Shows resistance to market shifts or changes in direction, often requiring extra time or support to adjust. Finds it challenging to stay effective in rapidly changing environments, needing clear guidance to navigate change.

Job performance insights

Overview of Candidate Strengths, Expert Recommendations for Leveraging Them, and Insights into Ideal Workplace Environments

1. Conscientiousness → Ambition: 100%

Sets challenging goals and consistently works towards achieving them with focus and determination. Demonstrates a strong drive for personal growth and seeks out opportunities for advancement. Actively pushes themselves to exceed expectations and strives for excellence in all tasks.

Identified Strengths

- **Ambitious Goal Setting:** Pursuing challenging targets with determination and focus.
- **Seeking Growth:** Actively looking for opportunities to improve and grow professionally.
- **Striving for Excellence:** Consistently exceeding expectations and elevating performance.

How to leverage strengths

- Give them opportunities to manage high-visibility projects, allowing them to demonstrate their potential.
- Prepare them for leadership with fast-track training, strengthening succession planning.
- Work with them to set aggressive but achievable goals.

Thriving workplace environment

- Where clear advancement paths are provided, and regular performance feedback motivates success.

2. Extraversion → Influence: 100%

Inspires and motivates others by communicating a clear vision and creating a sense of shared purpose. Effectively persuades others to align with organizational goals, using logic and emotional appeal to gain support. Builds strong relationships and fosters cooperation across teams, ensuring that everyone is on the same page.

Identified Strengths

- **Inspiring Others:** Motivating and guiding teams by communicating a clear vision.
- **Effective Persuasion:** Using a balanced approach of logic and emotional appeal to influence and gain support.
- **Building Cooperation:** Fostering strong relationships that encourage teamwork and alignment.

How to leverage strengths

- Have them lead change initiatives to ensure smooth adoption and enthusiasm from teams.
- Involve them in pitching ideas to stakeholders or securing buy-in for projects.
- Drive team alignment by having them communicate the vision and rally others toward common goals

Thriving workplace environment

- Where leadership opportunities are provided, empowering employees to lead initiatives.

3. Agreeableness → Cooperation: 100%

Actively contributes to team goals, sharing responsibilities and supporting colleagues in achieving common objectives. Demonstrates a strong willingness to collaborate, offering help and resources to others when needed. Maintains a positive attitude toward teamwork, readily adapting to group needs and working harmoniously with others.

Identified Strengths

- **Collaborating Actively:** Contributing to team goals and ensuring successful teamwork.
- **Communicating Effectively:** Ensuring clear and efficient communication to prevent misunderstandings.
- **Supporting Team Members:** Offering help and resources to strengthen team performance.

How to leverage strengths

- Leverage them as a point of contact for clarifying tasks and expectations.
- Have them facilitate meetings to ensure clear communication and alignment.
- Involve them in resolving misunderstandings to maintain smooth collaboration.

Thriving workplace environment

- Where employees are encouraged to work together towards shared objectives with cross-functional cooperation.

Motivating Factors

Know what drives them:

- Individualized career development plans with growth milestones
- Performance-based rewards, including promotions and high-visibility projects
- Leadership opportunities to lead and inspire others.
- Involvement in decision-making processes to enhance leadership visibility

Growth insights

Snapshot into candidate's lowest scoring sub-factors, identified training gaps how they impact the team/ organizational performance and way forward

1. Conscientiousness → Reliability 0%

Struggles to meet deadlines and often requires extensions or reminders. May not consistently follow through on commitments or deliver results on time. Colleagues and stakeholders may need to check in frequently to ensure tasks are completed.

Identified training gaps

- May need frequent reminders to meet deadlines.
- Might not always follow through on commitments.

Impact

- Delayed project timelines and reduced reliability.
- Inconsistent performance, leading to trust issues among teams.

Way forward

- Structured Task Management: Use digital task trackers with deadlines and automated reminders.
- Accountability Check-ins: Set regular progress reviews with managers or peers to ensure follow-through.

2. Extraversion → Sociability 0%

Prefers working or interacting independently and may avoid large social gatherings. Finds it challenging to connect with others or may feel uncomfortable in unfamiliar social settings. Tends to stick to familiar groups and avoids engaging in new or diverse social environments.

Identified training gaps

- May prefer working alone and avoid group settings.
- Might hesitate to engage with new people.

Impact

- Poor teamwork and lack of synergy in projects.
- Difficulty in networking and building strong professional relationships.

Way forward

- Structured Collaboration: Assign small, task-based group projects with clear roles to ease them into teamwork.
- Guided Introductions: Pair with a networking coach or mentor who facilitates introductions and models effective social engagement.

3. Navigability → Comfort with Uncertainty 0%

Struggles to make decisions without clear or complete information, often seeking reassurance or waiting for more clarity. Prefers stable and predictable environments, feeling uncomfortable in situations with significant uncertainty. Avoids situations where ambiguity is present, needing structure and clear guidelines to function effectively.

Identified training gaps

- May prefer structure and struggle with unclear situations.
- Might avoid rapid change and uncertain conditions.

Impact

- **Slower decision-making in ambiguous conditions.**
- Difficulty in navigating market shifts and organizational changes.

Way forward

- Educate with advance briefings on upcoming changes to build familiarity and ease transition.
- Offer change management training. Provide early insights on industry trends to help employees stay ahead.

Summary

Understanding a candidate's personality traits and how they manifest in different areas of life is essential for making informed hiring decisions. Recognizing key behaviors and areas for growth can help assess how well a candidate will fit into the role and organization. This approach ensures that the candidate's strengths align with the role's requirements, while also supporting their personal and professional development within the company culture.
